

# Breast Pump Rentals Available

---

Preparing for a baby is an exciting time, but it can also seem overwhelming when you return home from the hospital. Feeding your baby is an important consideration — we recommend breastfeeding as the best feeding. Renting a breast pump may help you balance feeding your baby breast milk while keeping up with other demands after your baby arrives.

### ABOUT BREAST PUMPS

A breast pump helps a nursing mother pump and store her breast milk so the baby can enjoy the benefits of breastfeeding even when they are not together.

If you have chosen to breastfeed, a breast pump rental may be a convenient option to help you manage breastfeeding after returning to work, provide for your baby's care while you are away or simply adjust to the busy schedule of your new life. It is also a great way to supply breast milk to your baby if he or she needs to stay in the hospital for continued medical care.

### RENTING YOUR BREAST PUMP

We offer Medela® breast pumps to rent on a monthly basis. Rentals include the breast pump only; necessary accessories and attachments may be purchased separately at an additional cost.

The cost for a monthly rental is \$60/month. You may pay the total in advance using Visa, MasterCard, Discover or American Express.

A deposit of \$25 is required at the time of rental and will be refunded when the pump is returned in working condition.

To rent your breast pump, visit the lobby pharmacy at Carilion Roanoke Memorial Hospital Monday—Friday between 8 a.m.—9 p.m. The pharmacy is located near the front entrance and hospital lobby, behind the gift shop.

### HELP WITH YOUR BREAST PUMP

If you need help using the pump, please contact our lactation consultants at 540-266-6000.

Call the Carilion pharmacy at 540-266-6480 if you experience a technical issue with your breast pump.

***Give a breast pump as a gift! Looking for a last-minute gift for a new mom? The convenience of a breast pump makes a great gift and helps support new mothers who are breastfeeding.***
